MENU has always been fascinated by the way in which individuals and spaces can be united through great design. In our pursuit to craft furniture, lighting and interior accessories shaped by purposeful details, high-quality materials and human needs, we create strong and lasting relations between designers, manufacturers and customers. The sense of community that results from this union of like-minded individuals fosters a deeper sense of belonging – and products that stand the test of time, inviting human connection, inspiration and experimentation to push the boundaries of modern design. We truly believe that when we work collectively, we achieve more than we do individually: our softly minimal designs and collaborative spirit help to join the dots between the home and the workplace, redefining how we use space and, ultimately, how we connect to those around us. On the following pages you will find a detailed compendium of the MENU furniture, lighting and accessories collections, including product options, material and size specifications as well as prices.

The Eclipse Desk, by Fred Rigby

THE DESIGNERS SHAPING MODERN SPACES

Today, MENU’s designs can be found around the globe. To make sure our portfolio continues to anticipate needs and offer useful, beautiful solutions, we partner with contemporary talents in our native Scandinavia and around the world. At the same time, our collection is growing to include more legacy designers: masters whose work has stood the test of time and serves as a reminder of what it means to be a modern classic.

OUR DESIGN – YOUR LOOK

For our experiences of spaces to be fulfilling and memorable, every touch point needs to engage the senses thoughtfully. Our responses to colour and texture are instant and intuitive, so it is essential to consider these responses when selecting new furniture. MENU’s upholstery programme offers endless options for customising our collection to create the ideal look and feel for your space. You will find more than 100 fabrics and leathers and are even able to select your own upholstery if you wish. It is your world, after all.

DESIGN MADE FOR REAL LIFE

We believe in modern design built to last. Each piece is produced with the assumption that it will get plenty of use, whether in a busy family room or a high-traffic workplace canteen. Regardless of whether you are a contract buyer or a private customer, this translates into certainty that your chosen design has been tested to meet your most demanding use scenarios. Certain materials will develop a particular finish over time, transforming to reveal a new dimension of intriguing effects. This emotional durability helps to create a deeper bond between you and our products.

MENU AT THE AUDIO

MENU’s showroom is located at The Audio, a unique concept that masterfully unites co-working and event facilities, a café, restaurant and retail area, as well as an exclusive residence in a single, community-building universe. The Audio features an inspiring mix of original features and thoughtful new accompaniments from an eclectic mix of premium brands – not least MENU’s comprehensive range of furniture, lighting and accessories which are put to their truest test together with a curated selection of products from global brands. Abbreviated from the *Latin Ab Uno Disce Omnes*, meaning *from one, learn all*, The Audio reflects MENU’s founding philosophy of collaborative spirit. Redefining how we use design, space and, ultimately, how we connect to one another, this creative destination is a hub for powerful ideas, beautiful design and inspiration.

Find inspiration for shaping the *connected spaces* that define your world on the following pages.

Co Dining Chair, Plastic

BY NORM ARCHITECTS & ELS VAN HOOREBEECK

Developed with The Office Group and Norm Architects, this multi-functional Co Dining Chair features a recycled plastic form utilized for the seat, back and armrests. Sourced within Europe, the material is recycled to reduce waste and the production of new plastic. The durable, matte-finish material works in concert with the Co Dining Chair’s sleek steel or chrome frame. The form is distinguished by a wide and strategically-angled backrest to allow freedom of movement and provide maximum comfort, whilst the robust frame casts an intriguing silhouette. Optional armrests further elevate a sense of comfort and allow the chair to be suspended off the ground for easy cleaning.

Co Dining Chair, Fully Upholstered

BY NORM ARCHITECTS & ELS VAN HOOREBEECK

The Co Dining Chair Collection pairs a lightweight, sleek profile with great seating comfort. Available with or without armrests in three wood versions, the versatile design of the fully upholstered Co Dining Chair is set on a black powder coated steel or chrome base. The seat and backrest are lightly padded and fully upholstered for extra comfort, customisable in a range of beautiful fabrics and leathers.

With armrest

H: 80 cm / 31,5"
AH: 68 cm / 26,8"
SH: 45 cm / 17,7"
D: 50,5 cm / 19,9"
W: 62 cm / 24,4"

PRODUCTION PROCESS

Seat, backrest and armrests are made of curved plywood. Shell is CNC-milled in a 5-axis CNC machine. The core is made of beech veneer with an outer layer of oak veneer. Double layer foam is used on upholstered seat and backrest for added comfort.

The base is made of bent, MIG+TIG-welded 16 mm steel tube and armrests of 14 mm steel tube. The base and armrests are powder coated or chromed.

COLOUR

Armrest

TECHNICAL SPECIFICATIONS

PRODUCT TYPE
Dining chair

COLLI
1

ENVIRONMENT
Indoor

DIMENSIONS
H: 81 cm / 31,9"
SH: 45 cm / 17,7"
AH: 67,5 cm / 26,6"
D: 55,5 cm / 21,9"
W: 58,5 cm / 23"

PRODUCTION PROCESS
The shell is made using injection moulded polypropylene with fibreglass. The star base is die-casted and the column is made of extruded aluminium.

All new Harbour Dining Chairs with a swivel base or swivel with return have been upgraded with QuickClick gliders, as used on all other chairs in our collection.

The chairs are delivered with the plastic gliders attached and come with a bag of supplementary felt castors that allow you to easily switch from plastic to felt.

Ready Dining Chair, Red Stained Oak, by Matias Møllenbach & Nick Rasmussen
Harbour Column Dining Table, Ø60, Black Steel / Kunis Breccia, by Norm Architects
Water Bottle, 0,5 L, ClearGlass/Brass, by Norm Architects
New Norm Dinnerware, Dark Glazed, by Norm Architects

Ready Dining Chair Row Connector

BY MATIAS MØLLENBACH & NICK RASMUSSEN

PRODUCT OPTIONS

Row Connection allows you to join individual Ready Dining Chairs together in a line, making it ideal for use in conference facilities. The bracket is made of strong aluminium and is easy to connect and disconnect. The connecting bracket can be tucked under the seat when not in use. The Ready Dining Chair can be stacked both with and without the Row Connection.

Co Lounge Chair

BY NORM ARCHITECTS & ELS VAN HOOREBEECK

Profiling a more laid-back look than its dining counterparts, the comfortable Co Lounge Chair, designed for MENU by Norm Architects and Els Van Hoorebeeck, features curved armrests and an upholstered seat and backrest angled to support and embrace the body. The slender yet strong powder coated steel base lends a feeling of lightness to the design.

AH: 58 cm / 22,8"
SH: 41 cm / 16,1"
D: 66 cm / 26"
W: 70 cm / 27,5"

PRODUCTION PROCESS
Seat, backrest and armrests are made of curved plywood. Shell is CNC-milled in a 5-axis CNC machine. The core is made of beech veneer with an outer layer of oak veneer. Double layer foam is used on upholstered seat and back rest for added comfort.
The base is made of bent, MIG+TIG-welded 16 mm steel tube and armrests of 14 mm steel tube. The base and armrests are powder coated.

Passage Stool

BY KRØYER-SÆTTER-LASSEN

Carefully crafted with all the hallmarks of great carpentry, the Passage Stool in FSC-certified solid oak has a warm expression and an organic silhouette that invite to touch. Devised as a flatpack for quick and easy self-assembly, connecting the user to the design, it is offered in a natural or dark lacquered finish. The versatile, flexible piece can be used anywhere where an extra seat is required – at the dining table, office desk, or even as a side table or landing place for clothing in a bedroom or bathroom – and multiples can be stacked together when not in use.

Androgyne Dining Table, Rectangular 210 x 100

BY DANIELLE SIGGERUD

The Androgyne Collection pairs natural materials and sculptural forms to striking effect, taking its name from its blend of the masculine and feminine. A bold, confident take on a table, the rectangular iteration amplifies the dimensions of the collection’s dining table to grander proportions. The architect-designed piece, crafted with a wood veneer top and base, serves as a community-style table, with room to seat from 8-10 individuals. Available in 210 cm and 280 cm, its artistic silhouette balances function and beauty.

Androgyne Dining Table, Rectangular 280 x 110

BY DANIELLE SIGGERUD

The Androgyne Collection pairs natural materials and sculptural forms to striking effect, taking its name from its blend of the masculine and feminine. A bold, confident take on a table, the rectangular iteration amplifies the dimensions of the collection’s dining table to grander proportions. The architect-designed piece, crafted with a wood veneer top and base, serves as a community-style table, with room to seat from 8-10 individuals. Available in 210 cm and 280 cm, its artistic silhouette balances function and beauty.

Snaregade Conference Table

BY NORM ARCHITECTS

An elegant and minimalist design with a strong geometric presence, the Snaregade Dining Table is sleek enough to aesthetically elevate any space and durable enough for both commercial and private use. Efficient in its use of space, visually light and sophisticated, it is offered in a wide range of sizes and materials. The collection’s round, oval and rectangular dark-stained oak tabletops have a warm, homely appeal and are now made purposeful as a WFH desk thanks to the addition of a cable tray to keep wires under control and declutter your workspace.

The Eclipse Desk

BY FRED RIGBY STUDIO

A celebration of materials and form, the asymmetrical Eclipse Desk is based on a hand-drawn line, shaped from solid oak, dark oiled oak into a sweeping tabletop with a convex and a concave edge. Polished to a shine, it rests on a sturdy, flat leg, and a round steel column, for a distinctive silhouette that adds a sense of drama to the organic piece.

Androgyne Side Table, Ø40

BY DANIELLE SIGGERUD

Perfectly proportioned, the Androgyne Side Table balances a rounded marble tabletop on a powder coated steel base that features wide, flat legs, laser-cut for precision. The architect-designed piece is offered in a number of materials that can be co-ordinated or contrasted as desired. The latest addition to the collection is a tabletop in Emperor marble, a richly veined marble with intense brown tones, as well as calcatta viola, already known from the Plinth Collection. Carefully selected for its inherent beauty and light-reflecting qualities, the different marble tops provide a top provides a tactile and natural contrast to the sleek metal.

Androgyne Side Table, Ø50

BY DANIELLE SIGGERUD

A beautiful and practical furniture design that makes clever use of craftsmanship and tactile materials, the simple silhouette of the Androgyne Side Table is characterised by opposites. The pure use of materials contrasts with a refined silhouette of solid and soft lines, living up to its name thanks to its combination of masculine and feminine characteristics. The pairing of rich oak – with a natural or dark stained finish – walnut and Kunis Breccia stone creates a distinctive design customisable to any and every interior style.

Androgyne Lounge Table

BY DANIELLE SIGGERUD

Originally developed by Norwegian architect and designer Danielle Siggerud as a modern and versatile table for MENU’s former showroom café, the Androgyne Collection profiles simple silhouettes and refined materials. Celebrating craftsmanship and wood, the Androgyne Lounge Table is versioned in natural oak or dark stained oak or walnut, as well as with the option of a Kunis Breccia stone tabletop.

Passage Lounge Table, Ø50

BY KRØYER-SÆTTER-LASSEN

Whether playing host to drinks or home to the remote control or of-the-moment reads, the versatile Passage Lounge Table brings a feeling of soft serenity to spaces thanks to its calming round shape and FSC-certified solid wood construction. Cleverly designed as a flatpack, self-assembly kit, inviting you to engage with the design, it come in three sizes, which allows you to pair multiples together in a nest-like formation, and two finishes: natural and dark lacquered oak of the highest quality.

Umanoff Side Table

BY ARTHUR UMANOFF

As relevant today as it was when first designed by Arthur Umanoff in the 1950s, the reissued Umanoff Side Table balances walnut and brass on its rounded top and tripod-inspired frame to create a table that challenges convention. Despite its decidedly small footprint, the versatile piece makes a big impact as a mid-century modern design for a glass of wine, mugs of coffee or a delicate vase. The Umanoff Side Table is available in two sizes.

Eave Modular Sofa, 86, 2 Seater

BY NORM ARCHITECTS

The curved silhouette of the Eave Sofa takes its name and design cues from the lower edges of a roof that meet or overhang a wall. A perfect blend of style and comfort, the generous sofa encourages relaxation. The distinctive design is available in a range of fixed combinations – from single modules to two- and three-seater combinations and corner sofas – and upholstery textiles, including MENU’s tactile bouclé fabric.

SPEC OPTIONS

Available in fabrics from our upholstery programme. Standard lead times apply. Custom upholstery available upon request. For further information please refer to MENU upholstery programme.

Eave Modular Sofa, 86, 4 Seater

BY NORM ARCHITECTS

The curved silhouette of the Eave Sofa takes its name and design cues from the lower edges of a roof that meet or overhang a wall. A perfect blend of style and comfort, the generous sofa encourages relaxation. The distinctive design is available in a range of fixed combinations – from single modules to two- and three-seater combinations and corner sofas – and upholstery textiles, including MENU’s tactile bouclé fabric.

Corbel Shelf

BY KRØYER-SÆTTER-LASSEN

The modernist Corbel Shelf is a wall-hung podium that combines contrasting materials to arresting effect. The invention of design studio Krøyer-Sætter-Lassen, the versatile design in marble, oak and plated steel takes its name and design cues from architectural weight-bearing brackets traditionally made from stone or wood.

Plinth Shelf

BY NORM ARCHITECTS

The minimalist profile of the Plinth Shelf is shaped from Grey Kendzo, a rich, brilliant white veined marble, carefully selected for its inherent beauty and light-reflecting qualities. Equal parts elegant and purposeful, the 60 cm long shelf can be attached horizontally to a wall for use as a display ledge or bookshelf, or vertically as a wall-mounted podium on which to showcase a favourite object.

Zet Storage System, Back Panel

BY KASCHKASCH

Zet is a thoughtfully designed landing spot for the essential objects that define a space. The intuitive, minimalist and modular shelving system has an airy feel and the ability to be configured to suit any room thanks to its customisable form in six colour options and which now comes with display shelves and pinboard backs in corresponding colours, allowing you to play around with combinations to create precisely the look you want.

Torso Table Lamp, 37

BY KRØYER-SÆTTER-LASSEN

The contrasts between unglazed, raw ceramics and airy linen come into play on the Torso Table Lamp, designed by Krøyer-Sætter-Larsen for MENU. Gently rounded for a soft expression, the understated sculptural base has a timeless feel that will feel instantly at home in any setting. The tactile shade diffuses the light to create instant ambience, and the brass touch dimmer allows for a personal setting.

Globe Bulb

BY MENU

Energy-saving bulb in two versions: opal glass LED bulb with frosted finish and clear glass LED bulb with dim to warm function.

The effect known as dim to warm lowers the colour temperature of an LEB bulb when dimmed. The lower the brightness, the warmer (more orange) the colour to create a more natural ambience reminiscent of the sky at sunset. Dimming does not alter the colour temperature, but rather simply lowers the light level.

Échasse Vase

BY THERESA RAND

Theresa Rand’s playful concept beautifully interprets the word ‘échasse’, French for ‘stilt’. The slender supporting legs delicately suspend the mouth-blown glass shapes, creating a sense of lightness while ensuring stability. Each Échasse shape is handcrafted and therefore unique, and the distinctive colour gradients of the glass lend the design depth and contrast.

Échasse Vase, Small, Amber Glass / Bronzed Brass, by Theresa Rand
Androgynie Side Table, Ivory Steel / Crystal Rose Marble,
by Danielle Siggerud

Échasse Bowl

BY THERESA RAND

Warm, amber-coloured glass updates our popular Échasse Collection — a modern reinterpretation of glass vases and bowls inspired by laboratory test tubes. Looking to the past and to nature for colour inspiration – to the deep amber hue of traditional apothecary bottles and the golden-brown tones autumn leaves – the mouth-blown glass shapes are suspended on a bronzed brass stilt-like frame, creating a sense of lightness while ensuring stability. Elevated in every sense, the drop-shaped forms are as elegant when holding flowers on a desk, living room floor or nightstand as when left unfilled.

Ribbon Basket

BY NORM ARCHITECTS

A modern storage solution with a traditionalist feel, the Ribbon Basket contrasts sleek powder coated steel with soft, inviting curves. Crafted with precision, vertically positioned metal strips are formed into a gently rounded lip that makes it easy to carry the basket from room to room. Cushioned on the bottom with tonal leather for an exclusive feel and elevated on silicone feet for stability and protection, it adds instant graphic appeal to a room, as a practical and decorative home for magazines, home textiles, accessories and more.

Umanoff Wine Rack

BY ARTHUR UMANOFF

Arthur Umanoff’s mid-century modern wine rack combines black powder coated steel with leather for an industrial look. Holding 8 bottles, the reissued design is ideal for wine cellars or as a standalone rack in a kitchen or dining room for keeping bottles within easy reach. The timeless design doubles as a sculptural feature.

Bottle Grinders, Ceramic

BY NORM ARCHITECTS

Atypical for traditional salt and pepper mills, MENU’s Bottle Grinders are shaped like bottles to cleverly trick the user into engaging with the design in a playful and experimental way. Fitted with a powerful ceramic mill that makes light work of grinding a wide range of spices, Bottle Grinders are easy to operate, fill and clean, and the upright design ensures surfaces remain free from unwanted residue. Available in a range of colours and finishes, the collection’s most recent additions are carefully crafted from ceramic, featuring an ivory or grey matte glaze finish that displays small, deliberate imperfections for a handmade look and feel. The versatile kitchen accessories come fitted with a harmonising walnut wood lid.

Nimbus Table Mirror

BY KRØYER-SÆTTER-LASSEN

Designed for MENU by Krøyer-Sætter-Lassen, the Nimbus Table Mirror in polished or bronzed brass updates the classic looking glass to modern sensibilities. More than just a mirror, the gently curved halo-like stand brings elegance and visual intrigue to spaces, making it as beautiful to look at as it is to look into.

Battus Throw

BY MENTZE OTTENSTEIN + ROSHOLM

The luxurious Battus Throw is produced in Europe and is made of the finest quality materials selected for tactility. Battus features an enticing composition of soft, 96% Italian wool woven together with silk detailing as an elegant frame at the throw’s edge. The prevalence of mono-materials allows the Battus Throw to be disassembled and reused at the end of its long life.

(+/- 5%, plus fringes)

PRODUCTION PROCESS
The wool yarn is made from 100% pure wool. First it is spun and then dyed and weaved. The silk yarn is weaved in for details. The throw is washed to obtain a felted look and given it a great feel.

COLOURS
Burnt Sienna
Ochre
Indigo
Ivory

MATERIALS
99 % Wool and 1 % Silk.

WEIGHT
0,55 / 1,2 lb (+/- 0,05 %)

PACKAGING TYPE
Polybag

PACKAGING MEASUREMENTS (H x W x D)

Lead Times

This page provides an overview of MENU’s five product categories, production and lead times, as well as a short description of each and what you can expect. Lead times denote our commitment to ensuring that your order is expedited in a timely manner, allowing you to factor the cycle into your deadlines.

Each MENU SKU is offered with a series of assets that help you to market our products and include product imagery, POS material and social media content. Furthermore, we are committed to upholding compliancy where relevant and providing service support throughout.

PRODUCT CATEGORY	DESCRIPTION	PRODUCTION TIME	LEAD-TIME PRODUCTION + SHIPPING	UK STANDARD
STOCK ITEMS	Items which are in stock and ready to be shipped within 24 hours of order confirmation.	From 24 hours	Up to 2 weeks	
QUICK SHIP (QS)	Fast track stock items in predefined combinations for self-assembly.	Up to 2 weeks	Up to 4 weeks	Compliant with UK fabric and foam regulations where applicable.
RECOMMENDED COMBINATIONS (RC)	Predefined products combinations.	4 - 6 weeks	6 - 8 weeks	Compliant with UK fabric and foam regulations where applicable.
SPEC	Combinations outside QS and RC categories.	4 - 6 weeks	6 - 8 weeks	
COM	Bespoke upholstery.	6 - 8 weeks	8 - 10 weeks	

Trading Terms 2021

DELIVERY

A freight charge of 5% are added to orders above 600 EUR / 6.000 SEK / 6.000 NOK / 500 GBP / 5.000 DKK orders below this amount will be added a minimum fee of 30 EUR / 300 SEK / 300 NOK / 25 GBP / 250 DKK.

The freight covers standard delivery to a business address on weekdays between 8am-4pm. Special requirements on deliveries are subject to an extra charge and will be quoted individually.

PALLET FEES (IF REQUIRED, WILL BE ADDED BEFORE SHIPMENT):

- 1 Pallet: 10 EUR / 100 SEK / 100 NOK / 8 GBP / 75 DKK
- ½ Pallet: 8 EUR / 75 SEK / 75 NOK / 7 GBP / 60 DKK
- ¼ Pallet: 6 EUR / 60 SEK / 60 NOK / 6 GBP / 50 DKK

- Countries within the EU*: DAP Incoterms 2020
- European countries outside the EU and Greece: FCA terms
- Switzerland & UK: DAP Incoterms 2020, plus a fixed order fee of 25 EUR / 25 GBP for customs.
- All other regions: FCA terms

Orders are to be placed in full Master cartons.

- Should Master carton be breached, a fee of:
- 15 EUR / 150 SEK / 150 NOK / 13 GBP / 110 DKK per product line, will be charged

We refer to our website: www.menuspace.com for our General Terms and Conditions.

*Shipments off mainland EU might be subject to an extra charge and will be quoted individually.

Environmental policy

At MENU, we provide design solutions that can transform how we use space, connecting the dots between home, work, and hospitality. We are committed to do so in a sustainable and responsible way.

INTRODUCTION AND PURPOSE

For MENU, as a global company, environmental sustainability is extremely important for our business, both presently and in the future.

Many of our raw materials and ingredients are sourced directly from nature, and the continued success of our business is causally linked to the health of the environment. We are therefore continuously looking for ways to reduce our impact on the environment and the communities in which we operate. MENU understands, and acknowledges, the important role that we play in understanding, protecting, and enhancing the underlying biodiversity.

We are therefore constantly striving to optimize our use of natural resources, to view our products and activities from a life cycle perspective, and to develop and use environmentally friendly products, materials and technologies in a way that contributes to long-term sustainable development. The purpose of the Environmental policy is to prevent and control potential risks to the environment and tackle the impacts of our activities throughout the value chain, from the sourcing of materials, through packaging, production, distribution, sales and marketing, to recycling and reusability. In short, this concept is a lifecycle philosophy that we instill throughout our entire organization

SCOPE

This policy applies globally to the management, employees, and contract workers of all entities in Menu, including sub-contractors. The policy also applies to visitors and to situations where MENU's employees are working at external locations.

This policy commitment will be reflected in all other policies, guidelines, and procedures in MENU. We encourage our employees and other stakeholders to inform us about challenges on human rights, the environment, or anti-corruption associated with our services, products, or business relations.

COMMITMENT

Our commitment is based on the internationally agreed core principles for sustainable development; human rights (including labor rights), environment (including climate), and anti-corruption.

The principles are listed by the UN Global Compact and made operational through the UN Guiding Principles on Business and Human Rights (UNGPs) and the OECD Guidelines for Multinational Enterprises (OECD).

We comply with all applicable regulations, wherever we operate.

Distinctly deriving from this, is our commitment to comply, which means that MENU continuously identifies, prevents, or mitigates our risks of adverse impacts in relation to the core principles. We will communicate how we manage such impacts. We will seek to make a difference for sustainability, where it makes most sense for us as an organization, but also as a human being's part of a larger ecosystem that is bigger than our corporation.

This, of course, also affects our sourcing, design, and procurement as all these processes incorporate a lifecycle-based philosophy. This ensures that no products are manufactured with parts we are unfamiliar with – including the chemical aspects of the products i.e. coating, foam, wiring, pigment for paint, and that the products, as a whole, are manageable in terms of sustainable waste-handling and recycling. This combined with our know-how within craftsmanship and our love, and passion, for utilitarian design translates into the brand and quality we are known, and loved for, today.

EMPLOYEES

Our employees are key partners in helping us respect international principles for sustainable development. We expect all team members at MENU to assist us in honoring our commitment in their daily work. We will embed our CSR and environmental commitment in the daily work of both our employees and management through training, communication, and ongoing assessments.

We always appreciate good ideas for how to prevent, mitigate or improve our impacts on sustainable development. Since our employees have a crucial impact on how MENU acts in relation to our collaborators and

business relations, it is expected that they follow our internal guidelines and procedures on how to practice and operationalize responsible sustainable development. We do this by instructing all employees on the relevant procedures in their specific area of responsibility. We do this by training all employees in the relevant procedures in our environmental management system ISO14001, which defines our focus and commitment in relation to avoid and replace chemical substances which has newly discovered worrying properties even if the substance has not been classified yet, if it is in any way possible. Our designers are committed to design products with focus on quality and longevity to assure a positive life cycle perspective, where our products can hopefully be used for generations. Logistics are, undoubtedly, a significant part of our environmental impact; we believe that we have a responsibility and the means to prioritize ways of transportation with the lowest possible environmental impact and all employees working with shipping share this belief.

TRANSPORTATION AND DISTRIBUTION

At MENU we strive daily to improve on all areas of our business in terms of sustainable behavior and thinking, including our approach to transportation and distribution of our products. As a consequence of our holistic approach to product design, all our products are packaged in such a way as to use as little material as possible, while being packaged compactly. The compact packaging paired with the right shock-absorbing material ensures that we do not waste any space during transportation. Double-packaging is also a thing of the past in all our warehouses and suppliers.

The choice of packaging material (cardboard boxes and shock-absorber) is constantly being reviewed as well, both factoring product and environmental longevity; if our products break during transport, they will have to be transported and packaged again – and maybe 2 or 3 times more before reaching the customer again. Choosing the right material that serves both our customers and the environment is therefore alfa omega in terms of packaging, as we recognize that the packaging material will not serve with the same longevity as our products will serve our customers.

The mode of transportation used will always be the method with the least environmental impact, and we employ several different technical solutions such as Clean Shipping Index (CSI) with the intent of aiding us in choosing the proper solution for each of our individual shipments. Furthermore,

we are always in contact with our external land-based transportation agents to ensure that our products are delivered in an environmentally satisfactory manner.

SUPPLIERS AND EXTERNAL BUSINESS RELATIONSHIPS

We will expect all our business relationships to meet the globally agreed minimum standard for responsible business conduct as expressed in this policy.

Business relationships shall implement the UNGPs/OECD; i.e. manage risks of causing or contributing to adverse impacts in relation to human rights, the environment, and anticorruption, and address actual impacts, share their results – and ask the same from their relationships. In cases where a severe risk or impact is discovered it is mandatory to be communicated promptly throughout MENU's organization and the supply-chain. Likewise, MENU has an increased and sustained focus on the use of chemical substances in our products. Therefore, we are working with specialized advisors in the area to avoid toxic chemical substances and carefully evaluate classifications and newly identified suspected risks. We have a commitment to work actively with this area and set the bar higher than merely conforming to the legislation in the area. Any questions and reflections by our stakeholders are welcomed as a key element in the continued responsible development of our strategy for responsible business development.

Furthermore, we have asked all our suppliers to sign chemical declarations with the intention of maximizing transparency, traceability, and product compliance as a whole, as we have worked tirelessly, i.e. through our product-design-phase and choice of materials, to ensure the above-mentioned compliance and environmentally-friendly concept; this is a chain that must not be broken, and this policy has the intention of enforcing this philosophy.

General Terms and Conditions

1. GENERAL CONDITIONS

1.1. These General Terms and Conditions shall apply to all deliveries from MENU A/S (hereinafter “MENU”) to the purchaser (hereinafter “Purchaser”), unless otherwise agreed to by MENU in writing.

1.2. Any terms and conditions proposed by Purchaser, which are different from or in addition to the terms in these General Terms and Conditions shall not be binding upon MENU and shall be void and of no effect, except to the extent expressly accepted by MENU in writing.

2. ORDERS AND PRICES

2.1. A purchase order from Purchaser constitutes Purchaser’s offer to MENU, and it will only become a binding agreement between the parties, upon MENU’s acceptance in writing by order confirmation or otherwise.

2.2. All prices are exclusive of VAT, taxes, duties, customs and other charges and fees. MENU reserves the right to adjust prices until delivery in the event of changes in customs, duties, taxes, material and wages costs, currency conditions or other business conditions.

2.3. Any request to change a purchase order with upholstery products needs to be received by MENU within 3 working days from receipt of order confirmation to avoid any cancellation fees. In the event the products have already been dispatched, a fee for the return of the products shall be paid by the Purchaser (Refer to clause 7.4).

2.4. All purchase orders are to be placed in full master cartons. If Purchaser places an order for products in an amount that is less than a full master carton, Purchaser shall pay a handling fee per breached master carton.

3. DELIVERY AND DELAY

3.1. Unless otherwise confirmed by MENU in writing, the products shall be delivered as follows:

a) DDP (Incoterms 2010) for deliveries to countries within the European Union (EU). For UK please refer to Clause 9.2 and appendix 5a.

b) Ex Works (Incoterms 2010) for deliveries to all countries outside the European Union (EU), including but not limited to European countries outside of the European Union (EU) and Greece, however except for Switzerland.

c) DDU (Incoterms 2010) for deliveries to Switzerland. Shipments off mainland EU might be subject to an extra charge, which will be quoted separately from MENU to the Purchaser. Shipments to Switzerland are subject to a fee for custom duties, which will be quoted separately from MENU to Purchaser. Euro pallets and pallet frames used for the delivery will be invoiced to the Purchaser. Return of euro pallets and pallet frames is not accepted by MENU.

3.2. Partial delivery from MENU to Purchaser shall be permitted. Our SPEC and COM orders will be sent directly from our production sites to purchaser location unless agreed otherwise. This does not involve orders with delivery terms ex. works where collection will be from our warehouse in Brøndby, Denmark.

3.3. Upon request from Purchaser, MENU may offer to arrange for transportation of the products from the place of delivery set out in Clause 3.1 to a destination requested by Purchaser. Such transportation of the products may take place either by MENU’s own means or by contracting a third-party forwarder/transporter and the transportation is subject to an administration fee to MENU for arranging such transportation and all freight costs being paid by Purchaser.

Purchaser is, at its own cost, obliged to contract for insurance coverage against any risk of loss of or damage to the products during carriage. If the products cannot be delivered by the third-party forwarder/transporter to the address provided by Purchaser, it shall – irrespective of the reason for the delivery hindrance – be considered as a missed delivery. In the event of a missed delivery, Purchaser may be offered delivery on another day or alternative delivery options subject to additional freight costs and administration fees to be paid by Purchaser to MENU.

1/3

3.4. MENU’s production lead time for chairs and tables is approximately 0-8 weeks from MENU’s acceptance of the purchase order. Some of MENU’s chairs and tables are stock items, and upon prior written acceptance from MENU these stock items can be delivered by MENU with a shorter delivery date.

3.5. Any delivery date notified or communicated by MENU is solely an estimate based on MENU’s best knowledge, and delivery dates are therefore not binding on MENU, unless a specific delivery date has been agreed in writing with MENU. If a specific delivery date has been agreed in writing, delivery within 14 working days after the agreed specific delivery date shall not be considered a delay.

3.6. In the event that delivery has not taken place within 14 working days after an agreed specific delivery date, and the non-delivery is not caused by circumstances attributable to Purchaser, Purchaser is by written notification to MENU entitled to cancel the part(s) of the order relating to the products, which has not been delivered. If the purchased products are being specifically adapted to Purchaser in accordance with Clause 7, Purchaser is not entitled to cancel the order, unless the delay exceeds 40 working days after the agreed specific delivery date. The above remedies shall be Purchaser’s sole remedies in the event of delay.

4. TERMS OF PAYMENT

4.1. Unless otherwise agreed Terms of payment are 20 days from the invoice date on Contract and 30 days on other (20 days net and 30 days net respectively). Prepayment (50% of 100%) are required for 1st time customers, orders above EUR 300k, SOR, SPEC and COM products and where credit insurance cannot be taken. Better terms can be obtained if payment is done via SEPA Direct Debit.

4.2. In the event that payment is not provided on time, MENU shall be entitled to:

a) charge interest on the overdue amount corresponding to the official Danish discount rate (in Danish: "Diskontoen") in force from time to time with the addition of 1.5% per month, and

b) to suspend performance of all deliveries and orders to the Purchaser without incurring any liability.

4.2.1. In general the following precautions will be taken:

a) Overdue debt will result in stop for all deliveries.

b) Late payments will result in loss of credit limit and requirement for prepayment on subsequent orders.

4.3. MENU seeks to insure all debtors and therefore MENU reserves the right to collect credit information on Purchaser. If credit insurance is not granted by MENU’s credit insurance company, MENU will only ship the order to Purchaser against prepayment. In such event, Purchaser must pay the entire order amount within 4 weeks from the date of MENU’s order confirmation. If payment has not been received by MENU within this period, MENU will be entitled to cancel the order.

General Terms and Conditions

5. RETENTION OF TITLE

5.1. MENU shall retain ownership of products sold to Purchaser, until payment has been effected in full with the addition of interest and possible costs. Purchaser shall not be entitled to make arrangements that limit MENU’s retention of ownership.

5.2. Any deliveries of products to Germany or United Kingdom are subject to additional terms and conditions in relation to retention of title, cf. Appendix 5a and 5b.

6. LIABILITY FOR DEFECTS

6.1. MENU warrants that standard products delivered to Purchaser are free from defects in material and workmanship for a period of 24 months from the delivery date of each product (hereinafter “Warranty Period”).

6.2. If Purchaser wishes to claim this warranty, Purchaser shall without undue delay notify MENU in writing of any defects. Such notice shall under no circumstances be given later than 2 weeks after Purchaser has become aware or should have become aware of the defect and at the latest before the expiry of the Warranty Period. MENU shall not be liable for any defective products whatsoever if Purchaser fails to give notice in writing to MENU after the expiry of this period.

6.3. The Purchaser shall immediately upon receipt of the products from the carrier conduct a visual inspection of the delivered products, and

6.3.1 if there are any visual damage to the packaging, this needs to be notes on the Delivery Note from the forwarder. Failing this, the Purchaser will be liable for the damage.

6.3.2 If there are any defects or shortcomings in quantity in the delivered products, this shall be notified to MENU in writing within 2 weeks after the delivery date of the products. MENU shall not be liable for any defects or shortcomings in quantity in the products whatsoever if Purchaser fails to give notice in writing to MENU after the expiry of this period.

6.4. A claim from Purchaser shall include a description of the defect and be accompanied by the necessary and relevant documentation, including information on the order number and photos documenting the defect. All claims shall be sent by e-mail to MENU’s support team at: claims@menu.as.

6.5. If a delivered product is defective in any material way, MENU shall at its sole discretion be obliged to either (i) remedy the defect, (ii) replace the defective product or (iii) terminate the purchase order in respect of the defective product(s) against crediting of the invoiced amount for such defective product(s) to Purchaser. MENU shall notify Purchaser of its decision within reasonable time after receiving a claim from Purchaser. Purchaser is not entitled to other remedies in case of defects in the delivered products, and MENU shall not be liable for any other direct or indirect losses that the defect may cause.

6.6. MENU is only liable for defects which appear under the proper use of the products. MENU’s liability does not cover defects arising out of or caused by (i) materials provided by Purchaser, (ii) faulty maintenance, incorrect use or incorrect assembly, (iii) alterations or repair performed by Purchaser or (iv) normal wear and tear of the products.

6.7. Complaints/replacements can only be made to the original delivery address, unless delivery has been made directly to the end consumer. I.e. if ex works delivery terms, collection site is Brøndby, Denmark.

6.8. Apart from defects and warranty claims, Purchaser are in no instances entitled to return purchased products to MENU.

2/3

7. SPECIAL ORDERS

7.1. Any purchase orders where Purchaser requests MENU to incorporate or use fabrics, leather or other materials which are provided by Purchaser (hereinafter “COM/COL Products”) will only become a binding agreement between the parties upon MENU’s acceptance of the order in writing. Refer to clause 4.1. MENU is not responsible for any defects in fabrics, leather or other materials provided by Purchaser.

7.2. Any purchase orders where Purchaser requests MENU to deliver products with fabrics, leather or other materials, which are part of MENU’s range of materials that can be selected for MENU’s products (hereinafter “SPEC Products”) are considered non-standard products by MENU.

7.3. Any purchase orders where Purchaser requests MENU to manufacture a bespoke product (hereinafter “SOR products”) will only become a binding agreement between the parties upon MENU’s acceptance of the order in writing and Purchaser’s prepayment of 100% of the total purchase price under the purchase order. Standard warranty of 24 months applies.

7.4. If Purchaser cancels a purchase order for COM Products or SPEC Products after MENU’s acceptance of the purchase order, however subject to Clause 3.6 above, Purchaser shall pay cancellation fee to MENU as follows depending on timing of cancellation from receipt of order confirmation:

- Less than 72 hours after order confirmation: 0% on net price ex. VAT
- Between 73 hours and 10 days: 20% on net price ex. VAT
- More than 10 days: 100% calculated on net price ex. VAT.

Cancellation of purchase orders with SOR products is not accepted and the total purchase price under the purchase order is to be paid.

8. MARKETING

8.1. All advertisements, catalogues and other printed material containing MENU’s logo and MENU’s product descriptions, or pictures may only be used upon and according to prior written agreement with MENU. MENU reserves all intellectual property rights to such material and the right at any time to require the return or destruction of such material.

8.2. All our marketing material is subject to errors and omissions.

General Terms and Conditions

9. FORCE MAJEURE

9.1. MENU shall be exempt from any liability for non-performance of its obligations to the extent its performance is affected by force majeure. Force majeure shall include, but is not limited to, war, riot, fire, natural catastrophes, embargoes, industrial disputes, breakdown in production facilities, limited capacity, lack of motive power and other circumstances not reasonably foreseeable by and beyond the control of MENU, including force majeure of its sub-contractors. If an event of force majeure persists for more than 6 months, either party is entitled to terminate any affected purchase order.

9.2. Force majeure as described in Clause 9.1. shall include any event originating from Brexit. Brexit occurs when The United Kingdom (UK) formally stops being a member of the European Union (EU). Such events shall include, but is not limited to, delivery delay or hindrance, tariffs/duty/customs, etc. being imposed upon the sale of MENU’s products to the UK, change in the laws applicable to MENU’s delivery of products in the UK or the laws applicable to MENU’s delivery of products in the UK ceasing to be substantially similar to those applicable in the EU.

If delivery delay or hindrance is caused by events originating from Brexit, it shall be considered as a missed delivery for which MENU is not responsible. If tariffs/duty/customs, etc. are imposed upon the sale of MENU’s products to the UK, those tariffs/duty/customs, etc. shall be paid by the Purchaser. If there is any change in the law applicable to MENU’s delivery of products in the UK, or if the laws cease to be substantially similar to those applicable in the EU, the Purchaser shall be responsible for ensuring compliance with such laws.

10. PRODUCT LIABILITY

10.1. MENU shall only be liable for damage caused by MENU’s products in accordance with the mandatory provisions of the Danish Product Liability Act. MENU shall under no circumstances be liable for any indirect or consequential loss or damage, including but not limited to loss of profit, operating loss, loss of goodwill and loss of any contract.

10.2. Purchaser shall indemnify and hold MENU harmless to the extent that MENU incurs any liability towards any third party in respect of any damage for which MENU is not liable towards Purchaser.

10.3. If a claim for damage is raised by a third party against one of the parties, this party shall inform the other party thereof in writing without undue delay.

10.4. The limitation of MENU’s liability set out in Clause 10.1 shall not apply where MENU has been guilty of gross negligence.

11. LIMITATION OF LIABILITY

11.1. MENU shall in no event be liable for any indirect or consequential loss or damage, including but not limited to loss of profit, operating loss, loss of goodwill and loss of any contract.

11.2. MENU’s total and aggregate liability under or in connection with any purchase order shall in no event exceed the invoiced amount of such purchase order.

11.3. MENU shall not be liable for any errors in catalogues, brochures or other printed material submitted to Purchaser.

11.4. The limitation of MENU’s liability set out in this Clause 11 shall not apply where MENU has been guilty of gross negligence.

12. CHOICE OF LAW AND VENUE

12.1. These General Terms and Conditions and any purchase order are subject to Danish law, excluding its provisions on choice of law.

12.2. Any dispute arising out of or in connection with these General Terms and Conditions or a purchase order shall be settled by the city court of Copenhagen.

Materials & Maintenance

CARE & MAINTENANCE

Below are our general care and maintenance guidelines for all MENU products.

- Always follow the instructions for the specific product and material.
- Always use mild cleaning agents.
- Never use chemical cleaning products or harsh abrasives.
- To preserve the colour of the materials, avoid direct sunlight whenever possible.
- Never place products close to heat sources.
- Always protect surfaces against heat, humidity and strongly coloured items.
- Items for indoor use only should never be used outdoors.
- Products made from natural materials will display unique colour/surface variations.
- Tighten assembly screws periodically should joints become loose.

GENERAL CARE & MAINTENANCE: WOOD

Wood changes over the course of its lifespan, adapting to changes in humidity and light. Exposure to sunlight can cause changes to colour and structural over time, although mostly during the first couple of months of use.

Wood breathes according to climate. Therefore, furniture should be placed in rooms with a relative air humidity of 40–50% and a temperature of approximately 20°C. Due to temperature and humidity sensitivity, we recommend treating wood during the winter months — preferably before and after the season. Furthermore, solid wood may become weathered or the fibres may rise slightly. Wipe clean daily using a well wrung cloth and clean water. Never use detergents, chemical cleaning products or harsh abrasives.

SOAP TREATED WOOD

Soap treatment gives wood a somewhat dirt-repellent surface that helps prevent spills and stains from soaking in. However, if moisture is left on the surface over time, it will leave a permanent mark. This is also true of oil-treated wooden surfaces. The surface soap treatment is primarily applied on products where a naturally aged look is desired.

General guidelines for soap treatment:
A new table should be treated 2-3 times in the first three weeks of use to allow the soap to penetrate the surface and keep it light in colour. Subsequently, the table should be treated approximately every 2-3 months if it becomes too dark, dry or dirty.

The soap mixture should be applied with a wrung soft sponge or cloth, in the direction of the grains, evenly and without leaving any spots, stains or thick lines. The sponge or cloth should then be rinsed and well wrung before being used to dry the surface. Remember to also treat the bottom of the tabletop to prevent warping. It is normal for the fibres of the wood to raise slightly after the first couple of treatments. When the wood is dry, sand gently in the direction of the grains with fine grain sandpaper (180–240) or a sanding-sponge. Wipe away any dust.

PAINTED WOOD

Painted furniture is simple to maintain. Dust or wipe clean weekly with a damp cloth. If using water, be sure not to leave water residue on the surface as this can leave permanent marks when drying.

WOOD VEENER

Beautiful, easy to clean and durable, wood veneers are worthy contenders to solid wood, despite often being mistakenly considered inferior in quality. Wood veneer furniture is made from thin sheets of natural wood that are applied to a base of MDF, plywood or chipboard, giving the surface the appearance of solid wood. The final product is then varnished with polyurethane for a long-lasting, easy-care finish and to prevent spills damaging the surface and underlying design. The production process allows for an even appearance in grain pattern, where natural variations in the surface of the wood can be aligned for a more uniform look. Wood veneers do not age in the same way as solid wood – they are less prone to splintering and warping, and provide additional support to the overall furniture piece, making them inherently more durable than solid wood designs. Additionally, as only the outer layer of wood veneer furniture is made from solid wood, it uses a limited number of natural resources.

LINOLEUM

Linoleum is a unique, natural material, renowned for its elegance and durability. The distinctive look and tactile properties of linoleum – a matte surface with a warm, soft handle – ensure that every piece develops its own distinctive look and feel. Clean regularly with a damp cloth and mild cleaner such as Forbo Monel, 5 ml. diluted in 10 litres of water. For lacklustre or worn surfaces, increase the ratio to 10 ml. pr. 10 litres. Do not use alkaline or alcohol-based cleaning products as these will damage the surface.

1/4

LAMINATE

Made from several layers of paper compressed under pressure with melamine-based resins, laminate is highly resistant to wear and tear, is dirt and water repellent, and easy to maintain.

Clean daily using a clean, damp cloth or sponge and mild, pH-neutral detergent. Wipe dry. Avoid placing laminate in direct sunlight as this will cause fading.

MARBLE & STONE

The beauty of marble and stone is that no two pieces are alike. Formed over thousands of years, each piece bears the marks of its history, displaying natural imperfections that make each piece unique. A little care and maintenance will reward you with a lifetime of service.

To respect the authenticity of the natural stone, marble is treated with a sealer that provides the optimal compromise between a natural finish and functionality. The sealer leaves a satin-smooth surface that is repellent to liquids and dirt. However, liquids such as coffee, tea and juice should never be left to dry on marble as they will damage the surface. Never place acidic fruit on a marble surface and avoid using harsh and abrasive chemicals and corrosives.

To avoid everyday damage, use trivets, coasters and placemats to protect from hot tableware or anything that may scratch or stain the surface. If an accident occurs, act quickly and blot spills with a paper towel. Do not rub as this will spread the liquid. Use a pH-neutral detergent or stone soap to prevent the stain from drying out or absorbing into the stone.

Dust once or twice weekly with a soft microfibre cloth. Wash periodically with a cloth dampened with warm water, adding a small squeeze of pH-neutral dishwashing liquid if necessary. Remove any residue with a clean, damp cloth. Do not use abrasive cloths, sponges or wire pads which may scratch the surface. We recommend using a specialist natural stone soap to treat difficult stains. Never use acidic detergents (such as bathroom cleaners) or detergents containing bleach. Thoroughly rinse with clean water to remove all traces of soap.

Please note, marble sealer must be maintained every 8–12 months depending on the amount of use.

CONCRETE

Concrete is a naturally porous material with surface imperfections that change over time. These irregularities add a unique character to each object.

Extend the life and beauty of your concrete interior objects by cleaning periodically with mild soap and water, drying afterwards with a soft cloth.

CERAMICS

Clean ceramic surfaces with mild detergent such as washing-up liquid. For stain removal use a gentle soap applied to a damp cotton cloth and wipe dry with a clean cloth afterwards. Do not use chemical cleaners or harsh abrasives.

GLASS

MENU uses both soda lime glass and borosilicate glass, depending on product type. Mirror glass is used on all the mirrors in our product range.

Soda Lime Glass

Soda lime glass objects are mouth-blown, meaning each is handcrafted with unique characteristics such as small air bubbles, variations in shape and thickness, as well as colour tone.

BOROSILICATE

Borosilicate glass is engineered specifically for use in laboratories and applications where thermal, mechanical and chemical conditions are too harsh for standard, household soda lime glass. We use this type of glass for objects that hold very hot liquids.

Care & Cleaning

For daily cleaning, use a soft, dry cloth. For heavy stains, use a soft brush and standard dishwashing detergent and rinse with a solution of vinegar and water. Finish by wiping with a dry, lint-free cloth. Avoid using chemical and abrasive cleaners as these will damage the surface of the glass.

Mirror Glass

Each time a mirror is moved there is a risk of damage. Therefore, keep any movement to a minimum. To clean mirror glass, use a soft clean cloth wrung with warm water. Do not allow the edges of mirror to remain wet for extended periods of time.

Materials & Maintenance

Do not use acidic or alkaline cleaners on the mirror, and never use abrasive cleaners or powders or steel wool. For more thorough cleaning, use commercial glass cleaners without ammonia or vinegar.

PORCELAIN / CERAMICS

We use two types of glaze: colour and reactive.

Colour Glaze

Transparent colour glaze provides a beautiful depth of colour. However, it also reveals imperfections in the stoneware that are normally not visible to the naked eye. This is a natural characteristic of the product’s design, bearing the hallmarks of handmade products.

Reactive Glaze

Variegated or mottled glazes do not have a homogeneous solid colour or character (i.e. like a ceramic sink or toilet bowl). They are called reactive glazes because they contain higher percentages of fluxes and additions intended to produce one or more variables. A variety of mechanisms are used to create the variations in colour and texture. These include crystal growth, the addition of speckling agents, phase separation, layering and opacity variations – occurring with variations in viscosity.

Watercolour

Watercolour glaze – and its subsequent variations in thickness and colouring – often reveals the porcelain’s underlying natural surface as an effect that enhances the natural beauty of the material.

Care & Cleaning

To retain the quality of your piece and ensure longevity, use a non-abrasive cloth or sponge and warm, soapy water to clean. We recommend wiping with a clean, dry cloth afterwards.

All MENU’s porcelain/ceramic items are dishwasher and microwave safe. Avoid placing in extreme hot or cold environments, such as an oven or freezer, as this could cause thermal shock and result in damage to the structure including cracking and/or breakage.

In general, do not use any chemical or abrasive cleaners. Black marks on tableware – in particular on matte glazed surfaces, which tend to be more porous than high-gloss finishes – are often caused by cutlery. They can often be removed by using either Vienna lime, ceramic cleaner, baking soda or a small dose of vinegar. Use a scouring pad

with moderate strength to remove the stains. Rinse well after cleaning. Please note that actual scratches cannot be removed using this method.

Our thermo cups for daily use consist of two parts – an inner and outer wall – ensuring a cool external surface when filled with hot liquids. The cup appears thick and heavy, but in fact the two connected cups are thinner than a normal cup, making the thermo cup more prone to breakage by a hard knock or blow.

If a thermo cup is leaking, it may be caused by the defect closure of the small hole in the bottom of the mug. This hole is made for technical reasons and is closed with paste after the final firing in the kiln. If leaking occurs, allow the cup to dry completely before closing the hole with silicone glue.

Metals

Metal is a catch-all term for metallic elements or alloys of these. The most common metals are iron, copper, zinc, aluminium, tin and lead, as well as alloys such as steel, brass and bronze.

Brass

Brass is a metal alloy made from copper and zinc. Variations can occur from one product to another, making each item unique. Untreated brass will naturally oxidise from the moment it is exposed to air, often already displaying dark spots before use. This is not a flaw, but rather a natural characteristic of solid brass. MENU products crafted in solid brass are offered in different surface finishes: polished brass, brushed brass and bronzed brass.

Polished, Brushed & Bronzed Brass

To keep polished or brushed brass looking its best, clean with a gentle metal polish and a soft cloth, avoiding water. Polishing creams and/or cloths can be bought in most retail stores.

To keep bronzed brass looking its best, clean by wiping with a soft, dry cloth. Do not use chemical or abrasive cleaners and avoid using water. Please note that hard polishing will over time remove the fine hairlines on the surface of brushed and bronzed brass.

Polished Brass w. Lacquer

Some of our brass products are finished with a layer of varnish to protect the surface from oxidation.

To clean lacquered brass, use a soft dry cloth and do not use chemical or abrasive cleaners or water.

2/4

STEEL & ALUMINIUM SURFACES

The different types of metal surfaces used to make a number of MENU’s designs are simple to maintain and resistant to both dirt and liquids.

We use plated, anodised, lacquered and stainless steel, as well as powder-coated steel. Plating, anodising and powder-coating is clarified below. Plating refers to a variety of surface finishes where solid metal is vaporised and deposited onto electrically conductive materials as pure metal or alloy coating.

This provides a thin metallic film on the base material. Anodising is an electrolytic process used to increase the thickness of the natural oxide layer on metals. By pairing with paint primers, the process creates a durable, anti-corrosive and wear-resistant surface. This process is most commonly used on aluminium.

Powder-coating is a painting process most commonly used on metals such as steel and aluminium. Dry powder paint is applied to the surface of an object and then melted/cured under heat of around 200°C – 400°C. Powder-coated surfaces are harder and more durable than conventional paint.

Plated, anodised, lacquered or stainless steel

Use a soft dry cloth to clean. Do not use chemical or abrasive cleaners and avoid using water. Please note that hard polishing will damage the surface.

Powder-coated steel

Durable and easy to clean, wipe with a soft dry cloth to clean. Do not use chemical cleaners or harsh abrasives and avoid using water.

UPHOLSTERY

MENU’s upholstered furniture can be covered in a large selection of fabrics and leather.

Our upholstery fabrics are sourced from some of the industry’s most respected companies, each with an extensive knowledge on how to best care for each textile type. Visit the respective company website for further information about how to care for your product. Although our upholstered furniture is made to last, each piece will age uniquely over time. Furniture constructed using foam will, depending on use, develop various deformations with use. Loose and down-filled cushions should be turned and plumped regularly to ensure uniform wear and to retain their shape.

Textiles are dyed individually, which can cause variations in colour from batch to batch. This also applies to leather tanning.

Textiles

To clean upholstery fabric, vacuum frequently with a soft brush and low power. Do not rub vigorously as this could result in loss of colour and/or surface damage.

Leather

We use three types of leather: aniline, semi-aniline and protected. We also use nubuck. Care guidelines are the same for all three types of leather. For nubuck, see the following page.

Care & Maintenance

Avoid placing leather in direct sunlight or extreme heat. Clean using the suds from household soap flakes. Mix 50 ml. soap flakes to one litre of hot water. When the water is room temperature, apply the foam over the leather with a soft cloth. Avoid soaking. When dry, polish the leather with a clean cotton cloth.

- Avoid contact with sharp objects.
- Absorb spills immediately with a clean, dry cloth.
- Vacuum regularly with a soft brush to remove dust.
- Never use detergents, ammonia, oils, polish or varnish.

Aniline Leather

This soft, premium quality leather is made from high-end raw hides. Aniline leather is ‘nude,’ meaning it displays visible surface marks that reflect the life of the cow – including fat wrinkles, scars and bite marks. These subtle, natural markings bring a unique quality to each hide. Furthermore, slight colour variations are visible as hides react differently to the tanning process. These characteristics will become more pronounced as the leather ages. With open pores similar to that of human skin, the temperature of the leather will adjust to match that of the human body, offering additional comfort for the user when seated. MENU uses aniline leather due to its natural appearance and tactile handle that improves with use.

Semi-aniline Leather

Aniline leather is distinguished by its surface finish and easy-to-maintain properties. A light, pigmented surface treatment protects it against stains and the whitening effects of light while retaining its natural look and feel and uniform colour. The surface treatment disguises some of the

Materials & Maintenance

natural markings. However, neck and fat wrinkles continue to remain visible. The full-grain leather is highly resistant to wear and tear. With open pores similar to that of human skin, the temperature of the leather will adjust to match that of the human body, offering additional comfort for the user when seated.

Protected / Corrected Leather

Developed for durability, protected – or corrected – leather has a special surface treatment which guards against wear and tear, making it water and dirt repellent and stain resistant. Hides are sanded to remove some of the natural markings on the leather. As a final treatment, a grain pigment is added to create a more uniform look to the surface’s colour and structure. Protected/corrected leather is soft and comfortable, easy to maintain and designed to last for generations.

Nubuck

Avoid contact with water, liquids or creams. Suede and nubuck must not be cleaned with water or soap flakes. Instead, use a vacuum cleaner with a soft brush attachment.

Sheepskin

In order to preserve the original condition of your sheepskin furniture, vacuum clean and air regularly. Spots should be immediately soaked with water. Clean with a sponge, lukewarm water and a mild wool shampoo. Avoid placing sheepskin furniture in direct sunlight as colour changes in the wool may occur.

FABRIC LAMP SHADE

Fabric lampshades accumulate dust and dirt, cobwebs and fingerprints and some can also yellow over time. There are some simple steps you can take to keep yours looking its best. As fabric lampshades are glued onto the frame, they require extra care when handling. You should always handle the lampshade by its fitting to avoid denting, marking, creasing or tearing the fabric. It is equally important to use the correct method and materials to clean it, taking care to avoid the excessive use of water, which may cause staining.

Clean on a regular basis, switching the lamp off and making sure the bulb is cool before wiping the shade in a sweeping motion with a microfibre cloth, or brushing vertically from top to bottom with a soft brush or lint roller.

You can also use one of the following methods to remove excess dust and dirt:

- Use a hairdryer on a low heat at full power to blow away excess dust and dirt. Hold the dryer 20-30 cm away from the shade to avoid damaging it.
- For more durable fabrics, use a vacuum cleaner with an upholstery brush attachment to clean the shade with a light brushing movement from top to bottom.
- Roll a sticky lint roller lightly across the fabric, or dab masking tape onto the fabric, making sure not to press too hard, to lift away dust and dirt.

Removing light stains from a fabric lampshade
If your lampshade has light stains but is not suitable for immersion in water, remove any non-washable fittings such as the base, lamp holder, bulb and cords. Mix tepid water with delicate fabric detergent and apply just the soap suds to the entire shade in sections using a microfibre cloth. Gently rinse off the suds and wipe the lampshade dry.

You can also use a fabric cleaning spray, following the usage instructions carefully.

Spot cleaning can sometimes leave water marks, dye stains or a noticeable clean spot. Cleaning the entire shade will ensure an even finish.

Removing stubborn dirt from a fabric lampshade

For stubborn dirt or heavy stains, fill a large, clean container or bathtub with lukewarm water (using cold water for glued fabric lampshades). The water should be deep enough to fully submerge the lampshade. Stir in delicate fabric cleaner to create suds. Lower the lampshade into the water, holding securely by the frame. Using a sponge or cloth, gently wipe the lampshade in an up and down movement. If required, use a soft brush to gently dab any stained areas. Do not rub vigorously. Once the shade is clean, drain away the water and refill with clean water, dipping the lampshade in and out a few times to remove any excess soap.

Drying a fabric lampshade

Fabric lampshades can often appear to stretch when washed. This is temporary and they will return to their original shape when fully dry. It is important to ensure they dry evenly. After cleaning in water, gently shake the lampshade and pat dry with a soft, clean towel to remove any excess liquid. Hang over the bath or place in a well-ventilated spot to air dry. Dry outside in warm weather, placing it in a clean area away from direct sunlight. You can also use a hairdryer or fan to help dry your shade. Use with caution, on a cool setting and placed 20-30 cm away from the lampshade.

3/4

RUGS

Each MENU rug is unique, hand-woven by artisans and displaying unique variations that to the overall character of the rug. Undyed natural yarn lends different shades and texture to each piece.

General Maintenance

With the proper care and attention, your rug will look beautiful for many years to come. Vacuum frequently to remove dust and dirt. Some fibre loss or ‘shedding’ is normal for new rugs and will diminish with frequent vacuuming which will also lift flattened pile in high-traffic areas.

- For looped pile rugs, use a cylinder vacuum with a smooth nozzle and no beater bar.

To prolong the life of your rug:

- Place barrier mats by doors and clean often.
- Use castor cups under furniture.
- Lay non-slip underlay under all rugs.
- Rotate rugs regularly to spread wear.
- Avoid exposure to direct sunlight, which may result in colour fading.
- Keep away from sharp objects and open fire.

To minimise damage when a problem arises:

- Remove any solids with a spoon or blunt knife.
- Blot spills with kitchen towel until dry.
- Avoid rubbing, which can cause permanent surface damage.
- Do not use water.
- Avoid chemical cleaners which may set the stain, damage the pile or leave a sticky residue prone to re-soiling.

TENCEL RUG (CUT PILE)

Our tencel rugs are for indoor use only. Avoid using in damp areas such as cellars, bathrooms and kitchens.

- Do not dry clean.
- Occasional professional rug cleaning is recommended.

Tencel is one of the best performing cellulose fibre for floor coverings. The material is sustainable, biodegradable, hard wearing and able to adjust to humidity. It also harbours fewer bacteria for a healthier living environment. Tencel can be professionally cleaned.

WOOL RUG (LOOPED)

Our wool rugs are for indoor use only. Avoid using in damp areas such as cellars, bathrooms and kitchens. See General Maintenance for care instructions.

- Do not dry clean.
- Occasional professional rug cleaning is recommended.

Wool rugs are made from animal fibres. If the rug becomes wet, it may emit an unpleasant odour. To eliminate and prevent this, dry well. If your wool rug takes too long to dry, it may become mildewed. Wool rugs placed in darker or cooler rooms are likely to stay wet for longer than rugs in warmer, sunnier rooms.

When possible, hang the rug outdoors to dry in the sun. Depending on the climate and season, it may take up to a week for the rug to dry properly. Bring it inside at night to avoid the morning dew. Turn it over when you take it back outside so that both sides dry properly.

If the smell persists, you live in a damp climate or in a home with no outdoor space, use a fan to dry the rug, moving it around to ensure even drying and turning the rug occasionally. Once completely dry, sprinkle the rug with baking soda. Allow the baking soda to sit for 30 minutes before vacuuming. If the smell persists, repeat, letting the baking soda sit for longer before removing. Alternatively, sprinkle baking soda underneath the rug, allowing it to sit for a few days before vacuuming away.

Add two tablespoons of tea tree oil to one cup of water in a spray bottle. Shake and mist lightly over the rug. Allow one side to dry before turning to repeat on the other side. Tea tree oil is a natural antiseptic that helps neutralise mould and mildew.

RATTAN

Rattan is a natural material that displays unique colour variations that make each piece unique. For daily cleaning, wipe with a dry cloth. Once a month, clean with a soap solution, adding one tablespoon of soap flakes to one litre of warm water and applying to the rattan, allowing it to penetrate into the material. Wipe off any remaining water with a clean, damp cloth.

Rattan is suitable for both indoor and outdoor use. Rattan used outdoors should be stored inside or covered in cold, wet weather.

Materials & Maintenance

Variations In Natural Materials

RUBBER & SILICONE

To clean rubber and silicone, use a mild detergent or baking soda and a non-abrasive brush.

Wash the rubber or silicon with mild detergent, lukewarm water and a non-abrasive brush. Apply light pressure as you scrub in a circular motion. Rinse with clean water.

Apply baking soda to any areas that feel sticky or have mouldy patches. Gently work the baking soda into the surface with a damp, non-abrasive scrub brush. After scrubbing, wash with a mild detergent to remove any residue. Repeat as necessary.

PLASTIC

Wipe plastic with a dry cloth to clean.

To remove dirt, use a cloth wrung in lukewarm water. For stubborn dirt, use a mild detergent. Do not use chemical cleaners or harsh abrasives as these may scratch the surface.

Natural materials, including but not limited to wood, wood veneer, stone, marble, leather, stoneware and porcelain, display natural markings and/or irregularities that make each product unique. Variations in colour and texture are therefore to be expected and are not considered defects, but rather indications of the material’s natural origin.

HANDCRAFTED MATERIALS

Items made by hand from materials such as glass and porcelain may vary in weight.

Product Index

Aer Vase	43, 220, 224, 390, 592
Afteroom Bar Chair Plus	140, 146, 147
Afteroom Bar Chair	134, 288

Upholstery

MENU Upholstery Programme

The MENU Upholstery Program is an overview of the textile and leathers available for MENU upholstered furniture. All textile and leather options are available in all colors. You'll find over 100 fabric and leather options, with the most popular configurations available with expedited delivery in our Quick Ship program.

Custom upholstery orders from our MENU Upholstery Program (SPEC) are ready to ship with standard delivery lead times. Our Fixed Combinations listed in this Brand Book are suggested upholsteries selected by our design team, and deliver with standard lead times. We are happy to upholster furniture using customer's own materials (COM) with extended delivery lead times, upon fabric approval.

Please note that the color references in this upholstery programme are only intended as a guide. For further information please see manufacturer websites, or contact your local MENU Sales Representative for samples or further information.

Upholstery Selection & Furniture

The MENU upholstery programme shows an overview of our textile and leather standard programme. All textile and leather collections are available in all colours. Please note that the colour references are only intended as a guide. For further information please see manufacturer websites, or contact your local MENU sales representative.

Selection of textiles or leather outside of our upholstery programme, is subject to final testing and approval. Additional deliverytime may also occur.
